Redefined: FCS Launched the X-type Parallel-Quartet IMM

The multi-component molding technology solution of FCS Group (FCS) has embraced a new product: **The X-type parallel quartet-injection molding machine.**

This technology has been introduced to the FCS large multi-component injection molding machine line. The first GW-1600R large two-platen multi-component IMM (quartet-injection molding machine) has been delivered to a well-known Chinese automotive lamp supplier for mass production ...
