## Master Melt Temperature to Unlock the Next Level of Injection Molding

### From Shear Heat to Screw Plasticizing: Decoding Melt Temperature Control

Melt temperature is invisible but critical to molding quality and stable production. With sensing systems, **FCS smart injection molding machines integrate temperature, pressure, and plasticizing data** — shifting control from experience to data for faster abnormality detection...

## Post-Show Review InterPlas Thailand 2026

Backed by FCS Thailand's local sales, technical, and service support, the SA Series continues to expand across Southeast Asia. At InterPlas Thailand 2026, the SA-400 with IML system produced 6-cavity IML beverage cups, highlighting FCS's high-speed production capability and localized machine expertise...
